RV-200 series

Viscometers &
Rheometers

Digital Viscometer RV-240 is specially designed for textile, paint, and petroleum, chemical industries majorly dealing with inks, oils, solvents, and non-Newtonian liquid. Compatible with 7 types of rotor for measuring high, low, medium viscosity reading with multi-sampling feature saves time and gives efficient results. Integrated with digital LCD display, newly design temperature flume. Crafted with stainless steel spindle, variety of rotors, it has a temperature sensor PT-100 and alarm option when a parameter exceeds the range, it is suitable for measuring range up to 7500 cP with speed up to variable speed with gear drive rotor.
