Horizontal Autoclave

Horizontal Autoclave/Steam Sterilizer HA-2000 Series

Steam Sterilisers & Autoclaves

Horizontal Autoclave/Steam Sterilizer HA-2400 suitable for sterilizing heavy load and instruments for medical and laboratory use. Comes with pressure safety interlock device, safety valve, over current and short circuit protection, automatic fault detection, dry burn protection, water level detection, over temperature protection, leakage protection. The benefits of product diversity and flexible options to make the right match and perfect fit for your customer needs. The machine has maximum sterilization pressure of 105 and 135°C with overload pressure protection. Provide 6 different exhaust steam speeds can be selected according to the material to be destroyed. Offer large volume water tank, set drainage temperature and the temperature of the sterilizing water. Built-in efficient steam generator, microcomputer temperature control, especially designed for bulk volume and highest flexibility in processing requirement.
