| Precision Balance | Precision Balance 0.01g TPB-4000 Series | Weighing Scales & Balances |
|-------------------|---|----------------------------|

Precision Balance 0.01g TPB-4440 feature weighing capacity of 3200 g and readabilities of 0.01g. Our Precision Balance are designed for pharmaceutical, laboratory and regulated weighing in a variety of cell and tissue culture facilities that require the highest accuracy in precision weighing processes. Precision Balance are designed for routine weighing applications in your workplace, offering accuracy and repeatability during essential weighing applications in education, laboratory and, industrial sector. The precision Balance deliver competitive performance at an economical price, featuring RS232 connectivity for easy communication, and a Backlight display and a simple interface for uncomplicated operation, these Balance are perfectly designed for your workplace. Standard features include Basic functionality for routine weighing applications. The precision Balance feature three essential weighing modes, RS232 connectivity for data transfer and storage and internal calibration (in selected models) making them ideal for routine weighing applications. Designed for uncomplicated operation with easy-to-use display and interface Equipped with an easy-to-read, bright Backlight display and a simple user interface, they are incredibly easy to operate, with almost no training required. Smart design and durable construction precision Balance have a small footprint which saves on benchtop space while providing a large weighing surface. They are durably constructed, and feature a stainless-steel pan to withstand day-to-day use in the workplace.
