Benchtop Large Capacity Refrigerated Centrifuge TBLC-2050 compiled with microcomputer allow for instant rotor identification, which robotically converts the rotational speed to the relevant RCF checking the user from setting a speed above the capabilities of the installed rotor along with R404a compressor unit and are convenient for a wide range of applications. Features with LCD/LED touch screen with multi-functional knob combination parameters. Accommodates different rotor and adaptors, as these motor capable of accommodating a great number of tubes at once. Available with 9 profiles for acceleration and for deceleration with high efficiency. Additionally, it comes with DC brushless converter motor.
