VA-2000 Series

Vertical Autoclave/Steam sterilizers VA-2600C floor standing self-contained sterilizer units that require no plumbing and operate from a standard single-phase power supply. Equipped with an effective air-cooling system for liquid sterilization. This speeds cooling time by up to 40% compared to standard models. The Texas Vertical Autoclaves are available in 110 L chamber capacity. All are built with castor wheels as standard making them easy to move. Widely used for sterilization applications in laboratory, hospitals, and clinics as well as for industrial sterilization applications in biotechnology and pharmaceutical industries. Comes with sterilization cycle including Solid cycle, Liquid cycle, Liquid with warming cycle, Agar cycle, Solid with drying (for WC model), Medical waste cycle, Customized cycle.
