Steam Sterilisers & Autoclaves

Vertical Autoclave

Vertical Autoclave/Steam sterilizers VA-6000

Vertical Autoclave/Steam sterilizers VA-6040 designed with elevating type door, which is more convenient to place and fetch the objects from the autoclave. Built in 7-inch capacitive touch screen, fully automatically controlled, easy to operate. The whole procedure from water inlet, pulse vacuum, heat, sterilizing, water outlet, exhausting to vacuum drying, which are all automatically by one-key operation. Floor standing self-contained sterilizer units that require no plumbing and operate from a standard single-phase power supply. Equipped with an effective air-cooling system for liquid sterilisation. This speeds cooling time by up to 40% compared to standard models. The Vertical Autoclaves is available of 80 L chamber capacity. All are built with castor wheels as standard making them easy to move. Widely used for sterilisation applications in laboratory, hospitals, and clinics as well as for industrial sterilisation applications in biotechnology and pharmaceutical industries.
